Assignment 4: Write a script that creates a directory named TestDir and inside it, creates ten files named File1.txt, File2.txt, ... File10.txt. Each file should contain its filename as its content (e.g., File1.txt contains "File1.txt").

```bash
#!/bin/bash
mkdir -p TestDir

cd TestDir

for i in {1..10}; do
    filename="File$i.txt"
    echo "$filename" > "$filename"
done

echo "10 files created in the TestDir directory with their names as content."
```
